Blackboard sites are created automatically for each course, but the professor has the option of make Blackboard available or not for students. Ask your professors if your class is using Blackboard.

If you are sure your class is using Blackboard, but you cannot access the site:

2- You may have a status problem. If this is the case, you should check your status with the Registrar or Bursar offices in your college.

EXCEPTION: It is not often, but the course you are taking could have set-up problems. In those cases the professor should contact the Blackboard administrator.

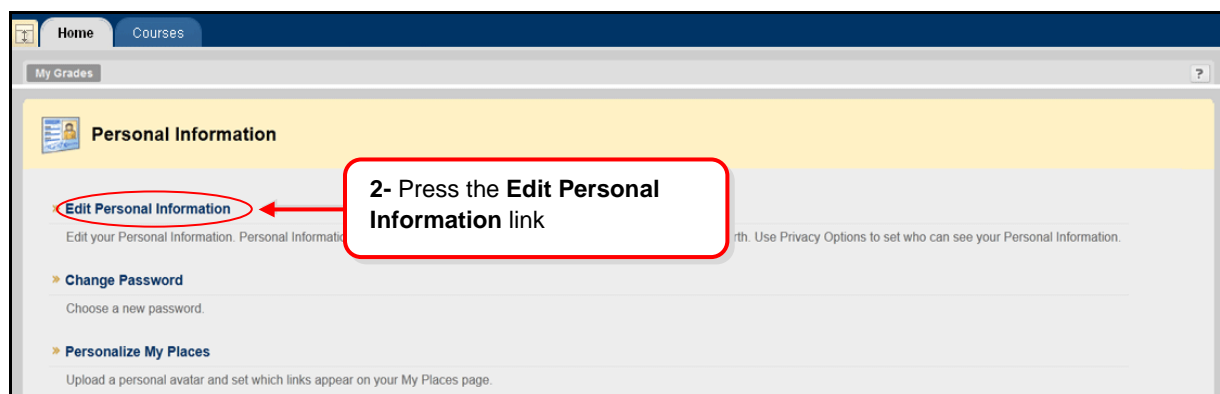

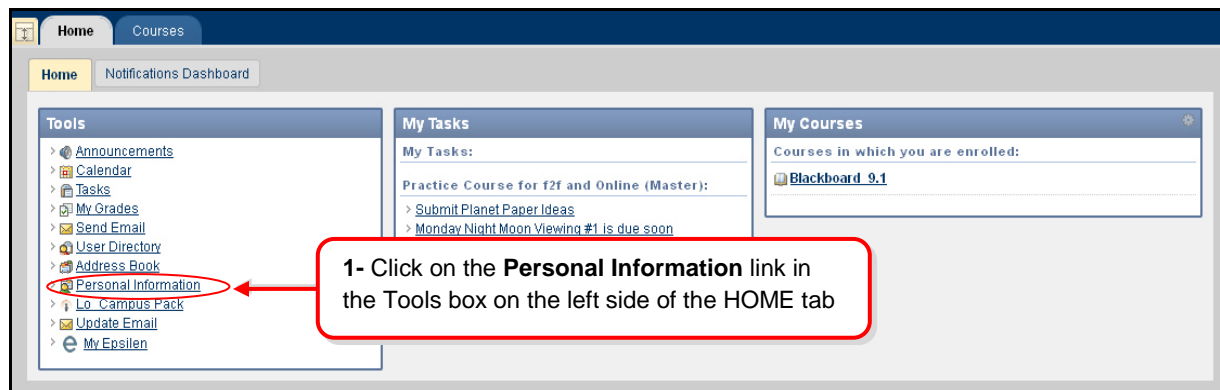

7- Why am I not receiving e-mails from my Blackboard classes?

Your CUNY related e-mail address should be your default email address on Blackboard, but Blackboard system will keep the primary e-mail you entered the first time you enrolled in a class at the College.

Some popular e-mail providers, such as Yahoo, Hotmail, and even AOL, may identify email from Blackboard as junk mail and then either automatically delete the email or move it to a junk mail folder.

If you are using the college email and are not receiving your messages through Blackboard, please check your settings to make sure that you do not have all e-mail from Blackboard defaulted to your junk folder.

To find your Blackboard e-mail address follow these steps

- 5- Press the **OK** button to go back to the Blackboard Home page.

Note: Students cannot modify their personal information.

8- How do I change my email address on Blackboard?

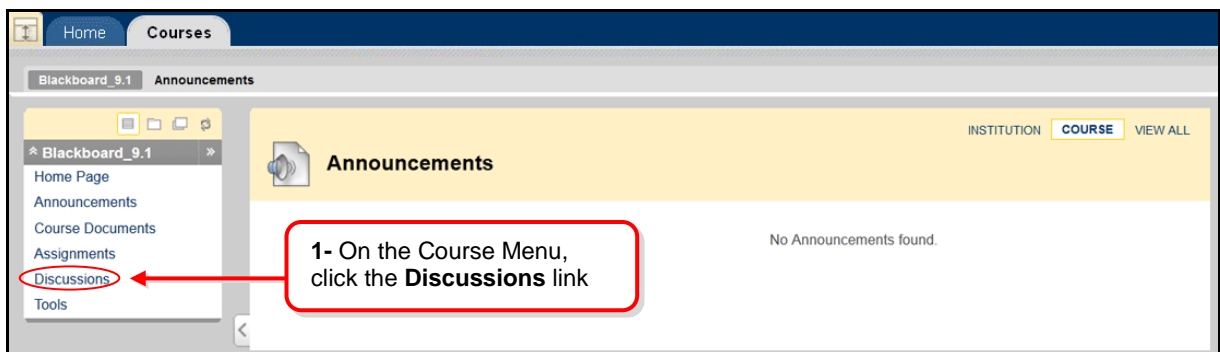

Only one email address can come into Blackboard. Therefore, the email address that is active in the CUNY portal is brought into the Blackboard system. If this address is not the one you use, you can now change it **ONLY** to a **CUNY RELATED EMAIL ADDRESS** in Blackboard.
