The Master Gardener Society wishes to thank you for the out standing, informative lecture you delivered today; you ended just when they were getting into the subject. The majority of the members left the meeting feeling a great high. I hope you felt their enthusiam.

I have been asked to request your internet address (and any others you think will be helpful for them to continue researching their special topics).

Again, thank you for your wonderful presentation.

Warmest regards,  
Nancy [Ferrara, Secretary]
