Internet Enhanced Section of Core 7.1

This section of Core 7.1 will make use of computer-aided instruction. In particular

- You will receive some computer-based instruction over the World Wide Web rather than in the regular lecture hall. The topics covered by the Web based modules will be chemical bonding and organic chemistry. At the time when these subjects are presented in the lecture hall this section will assemble in a Computer Classroom where you will make use of the Web based material. I will be available at that time to assist you and evaluate the effectiveness of the Web modules. **Attendance at these sessions is required.** Here is the Web address of the Core 7.1 material.

  [http://academic.brooklyn.cuny.edu/chem/howell/FIPSE/Core71.htm](http://academic.brooklyn.cuny.edu/chem/howell/FIPSE/Core71.htm)

  Please note that case is important when entering a web address.

- A required part of Core 7.1 is the writing of a report on a chemically related subject. You must write it on the Brooklyn College Caucus System. Further details on the paper and how to access the Caucus System are provided in the Core 7.1 site. (Click Introduction, then Policies, then Paper.) You will need a User ID to access the **Core 7.1 F00** section of Caucus. You will choose your own User ID and password. You can record your User ID and password below.

<table>
<thead>
<tr>
<th>User ID</th>
<th>Secret password</th>
</tr>
</thead>
</table>

- You are required to perform a simulation of the laboratory experiment on qualitative analysis before doing the work in the actual laboratory. (Click Activities, then Qualitative.) A report will have to be submitted via the Internet before performing the lab work. The report is written on one of the web pages.

- The effectiveness of the Web based instruction is being evaluated at Brooklyn College. You will be asked to fill out questionnaires.

If you are unclear about the requirements outlined above please talk to me.

If you are unsure of yourself with computer use or the Web please note that assistance is available to you. The staff of the Library Café will offer training. You are welcome to visit me during office hours. My e-mail address is jhowell@dti.net
