LA FOLLETTE SEES POWER COMBINATION

Says at Schenectady That the General Electric Is a Trust Ad
Sent With Wall Street.

COMPANY'S RADIO SENDS IT

CANDIDATE IN FINAL TALK IN STATE

The story of private ownership of Power is not yet over. Both
sides are in the game. The question is, Who owns it? Is it a "trust"...

SCHENECTADY, N. Y., Oct. 29.-The attempt of Mr. Grover C.
Roosevelt to force the private owners of the public utility in these
States to sell their properties to the public came out yesterday in a
sweeping attack by Mr. Robert M. La Follette, one of the nation's
most energetic....

Mr. La Follette addressed the public utility meeting here yesterday
afternoon and in a 20 minute talk, which was given before the meeting of
the Yankee electric utility owners, charged that the public utility...

"The power trusts have penetrated into every city of the nation,"
Mr. La Follette said, "and the public is paying a heavy price for
their utility services. The public utility companies are operating...

"The public utility companies are profiting from their monopoly position. They are not serving the public interest. The public utility..."...

During the story of private ownership of power, Mr. La Follette
charged that the public was being given an expensive service and
that the public utility companies were profiting from their monopoly position. He said that the public was paying a heavy price for its utility services and that the public utility companies were not serving the public interest. He said that the public utility companies were operating their plants for profit and that the public was being deprived of the benefits of competition.

The public utility companies were operating their plants for profit and that the public was being deprived of the benefits of competition. He said that the public utility companies were operating their plants for profit and that the public was being deprived of the benefits of competition. He said that the public utility companies were operating their plants for profit and that the public was being deprived of the benefits of competition.
